Staff Absence impact	Pupils /staff	School works on a ratio of staff to pupils. Risk to pupils and staff safety increases if the ratio of staff to pupils reduces.  Risk increases if the more experienced and specifically trained staff members are absent. Currently risk assessments are made by senior leaders in regards to pupil supervision each morning, including redirecting teaching and support staff as part of the daily cover arrangements. This includes consideration of risk around: <ul style="list-style-type: none"> <li>• Medical / health need</li> <li>• Learning and cognition need</li> <li>• Behaviour need</li> <li>• Social interaction need</li> <li>• Access to PPE</li> </ul>	likely	severe	high	Assessment of risks in light of the viral pandemic may need to result in more extensive measures such as, but not exclusively: -Combining groups of children, [with less adult support] -Reduction in the curriculum offer to avoid curriculum areas where there is an increased risk of injury due to reduced staffing, including PE, swimming, Food Technology, - Closing the school for certain groups of children -- Closure of the whole school  The Chair of Governors, NASSH and LA will be consulted and involved in all decisions about part or whole school closure. Parents will be informed as soon as possible
