

Bay Class

Communication, Language and Literacy	Bay class currently has 11 pupils from Y7-11 and is part of the Dragonfly phase. The teacher is Miss Davis and the class is supported by 3 TAs. Teaching is based each term around a 'theme' to engage the pupils. The pupils follow a bespoke curriculum which is tailored to meet the child's individual needs.	Food Technology
This term the class will be reading the texts "The Birthday Surprise" and "Batty About Bats" to support their learning in literacy as well as using The Read Write Inc phonics scheme to develop their reading and writing. We will be focussing on our Set 1 sounds and using these to write and read simple CVC words.		Pupils will develop their culinary skills cooking a variety of accessible recipes that are healthy and nourishing whilst learning how to keep themselves safe and hygienic in the kitchen.
Mathematics	PE	Music
During the autumn term the class will focus on looking at the areas of number and place value, addition and subtraction, as well as learning about 2D and 3D shapes in geometry.	In PE the pupils will develop their fundamental motor skills. This half term the main skills we are looking to improve are moving in different ways and catching by using different objects such as bean bags.	The first section of music this term involves the use of percussion in groups to make collaborative songs. After this the class goes down memory lane to investigate some of the biggest pop songs of the decades.
Sense of Self	RSHE	Art
By learning to use the Zones of Regulation pupils further understand their own feelings and those of others as well as working on how to express themselves in My Voice.	The pupils will develop skills centred around working collaboratively in a group in Let's Get Together, followed by learning how to keep themselves safe on the public highways in Road Safety.	Local Nature is the focus for the first term with lots of creative challenges including Leaf printing, Repeating patterns, Flower pressing, Natural dyes, Pebble art, Tree bark rubbings, Colour mixing and Sponge printing. Design and Technology projects for this term focus on nature and winter weaving.
Self help and independence	RSE / Cultural Studies	Outdoor Learning
Personal hygiene is the focus for the first term as pupils learn how to keep themselves clean and healthy by developing good washing and cleanliness routines as well as personal privacy.	Pupils will begin to learn about their own bodies and the changes and feelings that they go through as they mature in the learning modules My Body 1 and 2.	It's all about the seasons changing as the class looks at how the environment around the school and the wider area is preparing for the onset of Winter in the run up to the Christmas festivities.
